

TANMIA

Company Profile

Tanmia Means Development
Let us put our hands together
to make "Tanmia" a reality

Company Overview

Established in 2008

Joint stock company
Incorporated under
the laws of the
A.R.E

Specialized in
Development, Operation
& Maintenance of Oil
& Gas Fields and
Production
Facilities

Providing Integrated
Services for Companies
in the Petroleum
Sector

Shareholders

Vision

Tanmia is committed to achieve great growth to our clients by delivering technology and services that improve productivity and performing environment friendly activity .

Mission

Tanmia's main strategy is to add value to the development of oil & gas fields by raising the economic value and accelerating the production scale to be in line with the strategic plan and objectives of development and expansion of the Egyptian petroleum sector.

Core Values

- Safety comes first.
- Commitment to quality standards.
- Commitment to client satisfaction.
- Continuous Improvements.
- Effectiveness & reliability.
- Human resource development

Past Experience

Early Production Facility (EPF)	Surface Test Equipment (TMU)	Drilling Rigs	Flared Gas Projects	Compression Systems
Consultation & Manpower Supply	Well Completion Equipment	Shipping & Triplex Pumps	Electrical Generators	Coil Tubing
Emission Monitoring	Corrosion Monitoring	Tanks Desludging and Cleaning	Solid Control Equipment	General Supplies

ISO Certificates

Tanmia provides its services with highest standards in Oil & Gas industry.

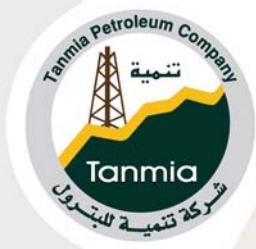

Drilling & Workover Services

Tanmia owns a (1500 HP) Drilling rig which is operating successfully in Egyptian market since 2011 & using subcontractors workover rigs; Tanmia performed workover operations for about 400 wells to petroleum sector companies.

Tanmia-1 Specifications	
Rig Name	Tanmia-1
Manufacturer	EPHH
Year of Built	2011
HP	1500
Max. Drilling Depth, ft.	16,000
Top drive	Available

Tanmia - 1 Rig Drilling Experience	
Dec. 2011	Drilled 8 wells for East Zeit Petroleum company
Nov. 2012	Drilled 4 wells for El Mansoura Petroleum Company
May. 2013	Drilled 25 wells for PetroSilah Company
June. 2016	Drilled 5 wells for Alamein Petroleum Company.
April. 2017	Drilled 2 wells to General Petroleum Company
August. 2017	One year contract with Alamein Petroleum Company.
Oct. 2018	One year contract with NORPETCO.

Consultation & Qualified Manpower Supply

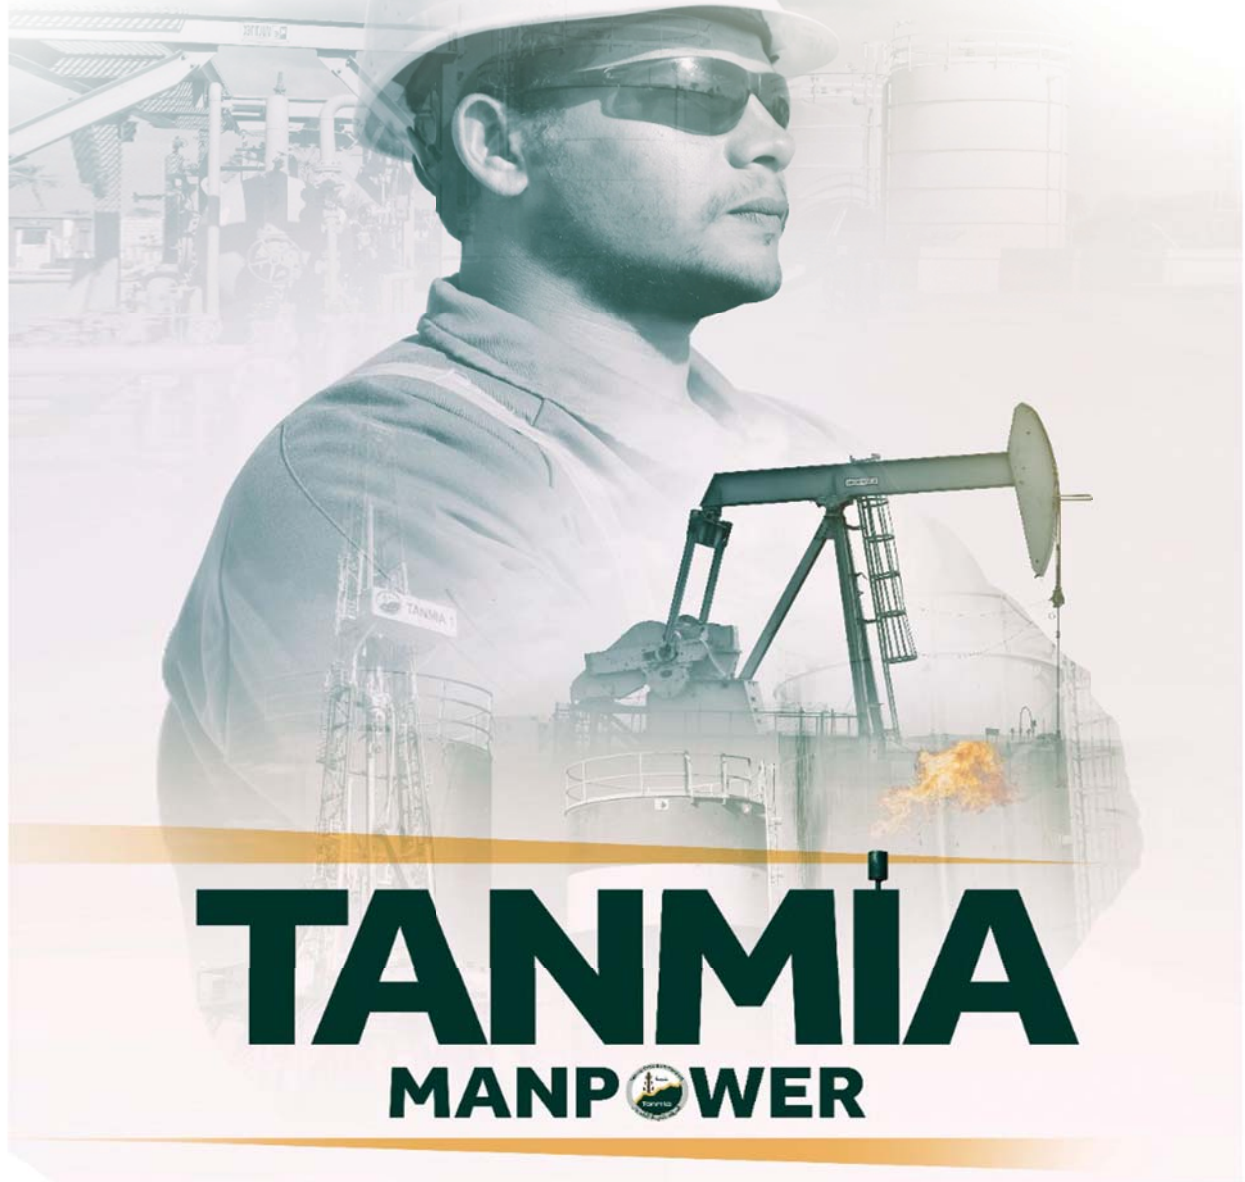

Tanmia Petroleum Company is the one stop solution for manpower supply service as well as providing skilled personnel to oil and gas industrial sectors, for upstream, midstream and downstream projects. We provide our services through onshore and offshore operations.

Moreover, the availability of the necessary technical support service for all Oil and Gas companies to establish, update, train and qualify individuals grant certificates for integrated management systems in the fields of occupational safety and health, environmental protection, quality as well as energy rationalization,

We are dedicated to make topnotch projects by providing specialized outstanding personnel for oil and gas industry sectors within relevant time.

Our extensive database and widespread network enables us to reach extensive clients in order to fulfill their expectations and requirements through professional insourcing and outsourcing supply of our crews onshore and offshore.

Tanmia's service providers reached 4000 workers through almost 50 contracts for 36 major companies as GUPCO, AGIBA, KHALDA and EDC

Early Production Facilities

Tanmia is providing early Production Facilities (EPF) and fast-track Production Systems to enable our clients to obtain early financial benefit and provide real-time production data that helps our clients to appraise their reservoir performance before installing permanent facilities.

Our solutions provide our customers with the ability to bring new developments on stream rapidly, ahead of permanent facilities being installed, thus offering compelling financial and operational benefits. In addition, our EPF solutions can be used for small reserves that will not meet acceptable risk criteria or would be uneconomic to produce with permanent facility, thereby the EPF in effect becomes the permanent 'life of field' solution.

Record Time in EPF

ALAMEN PETROLEUM CO. شركة العلمين للبترول

التاريخ: ٢٠١٨/٠٧/١٩

السيد المهندس / سمير عيسى
رئيس مجلس إدارة شركة تنمية للبترول

الموضوع: خطاب شكر

تحية طيبة وبعد ...

في إطار التعاون البناء بين شركات قطاع البترول تحت رعاية الهيئة المصرية العامة للبترول وبالتنسيق مع الإدارة العامة لتنمية شركة تنمية للبترول تم تنفيذ أعمال الإنتاج المبكر لمنطقة شرق أبو سنبل في توقيت قياسي والتي ساعدت في تحقيق خطة شركة العلمين لبدء الإنتاج في خلال ثلاثة أشهر من توقيع تكوينات الشركة المشتركة "توقس للبترول" والذي له مردود إيجابي على زيادة الإنتاج ودعم الاقتصاد الوطني.

وفي هذا الإطار نشكر شركة العلمين بخالص الشكر والتقدير لشركتها تنمية على هذا المجهود وتنمعه إلى مزيد من التعاون البناء مع شركتكم الموقر.

وتفضلوا بقبول فائق الاحترام،،،

د. سمير الشجر
رئيس مجلس الإدارة والعشو المنتدب

م. محمد السيد

Lotus EPF East Abu Sannan – Alamein

- The EPF was constructed in **15 days**.
- Number of wells: **6**.
- The daily production rate is **±1,600 barrels / day**.

محطات تسهيلات الإنتاج المبكر

العميل

شركة بترو فرج

وصف الأعمال

- تسهيلات استقبال الزيت الخام بمنطقة ظريف :

خطاب شكر

- تم إنشاء تسهيلات استقبال الزيت الخام بمنطقة ظريف بقدرة استيعابية 3,000 برميل وذلك لشركة بتروفرج بالتعاون مع شركة عجيبة للبترول ، حيث سيتم استقبال الزيت الخام المعالج من تسهيلات انتاج فجر ، و جارى حالياً التنسيق بين شركة بتروفرج و شركة عجيبة للبترول للبدء في التشغيل.

محطات تسهيلات الإنتاج المبكر

العميل

شركة دارا للبترول

وصف الأعمال

تنسيق محطة جنوب غزالات بالصحراء الغربية من خلال

المعدات المملوكة وكذلك من خلال مهندسي وفنيين

الشركة ، بإجمالي طاقة إستيعابية 3,000 برميل حيث

نحجت الشركة في الفوز بالمنافسة المطروحة من قبل

شركة بترودار وذلك لمدة عامين ابتداء من

Overview of Tanmia EPF

Permanent Production Facilities for East Zeit (Zeitco)

(8-slot Production Manifold , ESD , 3-Phase Separator , (5) Oil storage tanks 1000 BBL,
(2) Loading Pumps , Loading Platform, Flare Stack Chemical Injection Skid ,
(2) Air Compressors)

Early Production Facilities for Petrosannan

Free Water Knockout Drum (FWKOD) (Agiba – Khalda)

- Supply, installation , commissioning, operation and Maintenance on rental basis.
- Handling Capacity 50,000 BPD.
- The Best Technical and Commercial Offer in Qarun’s tender (Rental contract).
- The Best Technical and Commercial Offer in Khalda’s tender (Lease to Purchase Contract).

Tanmia Projects

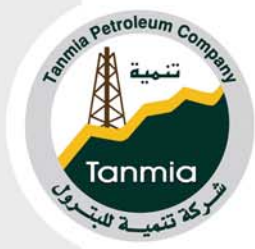

Flared Gas Recovery

Tanmia is a market leader in flared Gas recovery project. Tanmia utilized the flared gases (0.5 MMSCFD) at ESHPETCO field to generate (1.8 MW) almost 40% of field required electrical power and recover about 50 bbl/day of NGL.

Eshpetco Flare Gas Recovery Project

Tanmia Owned Equipment

Shipping Pumps

- High Flow rate – Low pressure pumps for EPF truck loading
- 17,000 BPD – 50 psi
- Low Flow rate – High Pressure pumps for Flow line shipping
- 2,000 BPD – 500 psi

Electrical Generators

- Over 30 Diesel Electrical Generators
- Perkins – 150 KVA
- Perkins – 200 KVA
- Caterpillar – 275 KVA

Gas Compressor Projects

Gas Lift Project

Amal Petroleum Company

Rental a compression System for Pilot Gas Lift Project

Design, supply and installation of gas compressor with a capacity of 6 million feet / day in addition to the gas drying unit

Tanmia Owned Equipment

Trailer Mounted Testing Unit (TMU)

1440 psi 5,000 BFPD , 30 MMSCFD

1440 psi 10,000 BFPD , 60MMSCFD

2000 psi 9,000 BFPD , 100 MMSCFD

Testing activities using Trailer Mounted Test Units (TMU)

Tanmia is providing testing units (TMU) and highly-qualified professional expertise, well testing Engineers and operators who will manage Real-time monitoring of process conditions and Data Acquisition system. This will separately monitor the process streams and process temperature, and pressure at critical points using high quality equipment.

Well Completion Equipment & Services

Tanmia provides Down Hole Completion Equipment & Services through an alliance with a well-known manufacturer (Giant Oil Tools – Canada & Star Petrotech – Singapore).

Tanmia Petroleum Company provides hydraulic SSD Packers, nipples, bridge plugs, control lines, chemical injection subs with check valves, all completion materials & services.

Completion Equipment & Services

Tanmia provide completion services through our technical arm Giant oil tools free zone at customer fields, warehouse and workshop for 24/7.
